Steven Li

Software Engineer

New York City, NY, USA (929) 263-9567 listeven6691@gmail.com www.linkedin.com/in/stevenli44 https://enbattle.github.io

EXPERIENCE:

Accenture

Full Stack Senior Engineer *March 2024 - Present*

New York City, NY, USA

- Deployed a multi-agent learning platform scaled to 1,000+ users, establishing rigorous LLM eval pipelines and custom guardrails to guarantee high-fidelity execution across existing instructor-led training systems.
- Enhanced an enterprise-scale event tracking system for 30+ critical applications, improving real-time customer experience monitoring by more than 25%
- Developed a standard framework for a context-engineering knowledge workspace with reusable agent workflows and skills, benefiting 20+ teams
- Served as Senior Instructor, teaching software engineering to over 200 students and mentoring 30+ instructors.

Back-end Engineer *May 2023 – March 2024*

New York City, NY, USA

- Enhanced e-commerce presence for a major brand by developing and deploying 50+ production-ready APIs with comprehensive testing and documentation with seamless integration to the existing platform

Front-end Engineer *July 2021 – May 2023*

New York City, NY, USA

- Modernized a desktop application for an investment firm, enhancing service delivery speed by 40%
- Implemented robust SDK integration for streamlined authentication and efficient searching
- Developed comparative proof-of-concept applications using Glue42 and Openfin, enabling data-driven vendor selection

Crestron Electronics | Software Engineering Intern *January 2020 – June 2020*

Rockleigh, NJ, USA

- Developed efficient smart home drivers in C# for the latest audiovisual systems, TVs, and security systems integrated with Crestron's control platforms
- Examined codebase quality using the company's Java/C# framework and supported the security test environment
- Collaborated with quality engineering teams on regression testing and analysis for smart home drivers and control systems pre-release

SKILLS:

- **Full Stack Development**: Typescript, React, React Native, Next.js, Angular, Node.js, Python, Java, SQL, PostgreSQL, GraphQL, MongoDB, CosmosDB, DynamoDB, Expo, Flutter
- **AI**: LLM API Integration, RAG, Agentic Workflows & Multi-agent Orchestration, custom MCP server development, AI Coding Agent Tooling (custom subagents, hooks, guardrails)
- **Technologies & Tools**: Microsoft Azure, Amazon Web Services, Supabase, Kubernetes, Docker, Redis, CI/CD

EDUCATION:

Rensselaer Polytechnic Institute, Troy, NY *May 2021*

Bachelor of Science (BS) in Computer Science

Bachelor of Science (BS) in Information Technology & Web Science
